# Prompts

We chose to address the following prompts:

- How can we use technology to provide quality education for populations in need?
- How do we promote healthy and sustainable living for general populations?

## Who is EDUALL for?

EDUALL is created to specifically target:

- Low-income and middle class families/individuals
  - Access educational service at free cost
  - Gain benefits of healthy and sustainable living as well as affordable alternatives
  - Access general courses like coding or graphic design

However, anyone is free to use the website!

## Our progress

---

# Progress

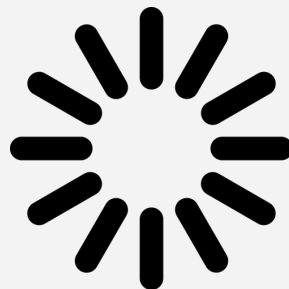

## Completed:

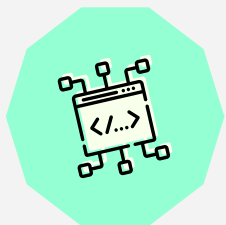

- Static-website (front-end programming)
- Added information about each core class for each grade (K-12)
- Connected some back-end to front-end using the survey.

## Aim to complete:

- Fully establish the survey
- APIs for the courses (grade specific and general)
- Personalize the website according to the user
- Turn the website into an app
